

14 December 2020

URGENT NOTICE

Planned Service Down Time of Moodle

To upgrade the resources dedicated to Moodle, **the Moodle service would be temporarily taken down on December 16th, 2020 at 10 am. The expected maintenance downtime is 4 hours.** The service is expected to be back up at 2:00 pm on the same day.

After successful maintenance operation, Moodle service will be available via the following new URL:

New URL: <https://moodle.cse.buet.ac.bd>

Notably, for testing purposes a Moodle service may be running on and off in the above mentioned URL between now and the maintenance time mentioned above. No assignment submissions should be attempted in this temporary deployment. Any submissions in the temporary (test) service will be ignored.

After the successful maintenance, the current URL (<https://cse.buet.ac.bd/moodle>) will also continue to work for the rest of this semester, automatically redirecting to <https://moodle.cse.buet.ac.bd>. The users are recommended to update their bookmarks etc. to the new URL during this time.

After the upgrade, if you encounter any unexpected behavior with Moodle, you are requested to report it to moodle.cse.buet@gmail.com

Dr. Mohammad Saifur Rahman
Associate Professor & BUGS Secretary
